

# top five budget tips: *wedding venue*

photo courtesy of: Laura Benitz Photography

**1.** Use one venue. Many locations have the ability to be both a ceremony and reception venue, which means you don't have to pay two separate location fees.

**4.** Skip Saturday. Saturday is the most common day to get married. So try playing the supply and demand card and see if you can get a cheaper rate if you host your wedding on a different day (like a Sunday or Friday).

**5.** Don't over-rent space. Make sure the space you rent is right for the number of guests that you will have. Only expecting 100? Don't look at venues that accommodate 300 guests.

**2.** Do an all-inclusive package. They take care of everything and then pass the savings on to you.

**3.** Go non-traditional. Places that don't always host weddings may be cheaper than those that are considered wedding venues.

5 for 5 appears on the 5th day of every month on Kiss My Tulle and offers helpful suggestions for the couple planning a wedding on a budget.
